

**75% Lower TCO
Than Standard PCs**

Devon IT's 6050/8050 Series, are designed to be a cost-effective alternative to standard PCs. Using the "Server Centric Computing" approach to enterprise information access, Devon IT's Thin Client Terminals minimize the cost of support by centralizing management and eliminating user-induced errors.

Applications are accessed and run on the server, enabling the terminal to plug-and-play into your network. In addition, the terminal has no applications or hard drives. This increases security and reliability, and decreases overall operating costs.

Devon IT's Thin Client Terminals are excellent solutions for enterprises looking to improve the security and reliability of their computer systems. They are used by many of the world's largest financial, manufacturing, and retail companies. These terminals enable enterprises to access the capability of today's most powerful applications at much lower up-front and total costs. Because Devon IT's Thin Client Terminals are more secure, more reliable, and more manageable than PCs, they can provide significant improvements in cost savings and security to any IT implementation.

Devon IT Fanless Thin Client Terminals

Rugged, Flexible, Affordable

Designed specifically for Server Centric Computing	Easy-to-use Graphical User Interface
No software installation required; Simplifies deployment	Displays Windows desktops, web browsers, and applications from multi-user Windows NT, Windows 2000, Microsoft Server 2003 & 2008
Fanless	External wireless option
Remote screen shadowing (VNC)	Enhanced security makes terminal immune from standard PC viruses, spyware, etc.
Centralized management	Supports TCP/IP, DHCP, DNS
Available with DeTOS, Windows XPe or PXE Boot	Diskless PC—No hard drive to fail
Full multimedia support	Optimized for Virtual Desktop Infrastructure (VDI)

Specifications

All terminal applications are run on the server side, without application installation on the client side, enabling a terminal to plug-and-play into a network. The combination of a secure system, convenient maintenance, and easy operation contributes to the reduction of Total Cost of Ownership (TCO).

Processor:

VIA C7 Eden 1 GHz

Memory:

128MB DOM/ 256MB DDR2 RAM (6050)
1GB DOM/ 1GB DDR2 RAM (8050)

Servers Supported:

Microsoft Windows Terminal Servers 2000/2003/2008
Citrix Metaframe
UNIX/Linux Servers
Legacy Servers such as Mainframe, IBM AS400, DEC¹

Networking:

10/100 Base-T Fast Ethernet (RJ-45)
PXE Boot
Wake-On-Lan

Input/Output Support:

One (1) serial (RS-232) port and one(1) parallel (DB 25) port
Six (6) USB ports (2 front and 4 rear)
Two (2) PS/2 keyboard and mouse ports
One (1) VGA (DE-15) port
Audio ports: line-in, microphone jack
Kensington lock slot

Protocol Support:

RDP
ICA
SunGlobal Desktop (6050)
X Clients (6050)
NoMachine (6050)
Leostream (6050)
Provision Networks² (6050) (TBA)
XDMCP (6050)

Features:

SunJRE
Active X
Shockwave
Adobe Flash Player
VNC
Firefox 2.0 (6050)
Internet Explorer 7 (8050)
Windows Media Player 11 (8050)

DEVONIT.COM

.Net Framework 3.0 (8050)

Management:

Thin Manage (6050)
Aurora Management Console (8050)

Terminal Dimensions:

Width: 1.8" (45mm)
Height: 8.4" (214mm)
Depth: 8.6" (220mm)
Weight: 3.6lbs (1.63kg)

Packing Dimensions:

Width: 10.5" (267mm)
Height: 10.2" (259mm)
Depth: 5.4" (137mm)
Weight: 5.75lbs (2.6kg)

Environmental:

Temperature Range:
Operating: 0 to 40 (degrees C)
Storage: -20 to 70 (degrees C)
Humidity: 20% to 80% non-condensing

Power:

110 to 230Vac, 47 to 63Hz
External power supply

Operating Systems:

DeTOS 6.x OS (6050)
Windows XPe (8050)

1 with powerterm emulator
2 Subject to change without notice
