# THIN CLIENT. NOW WITH THE THINK LEGACY.

THE THINKCENTRE M32 AND M73 TINY ARE THIN CLIENTS FROM LENOVO THAT DELIVER ENTERPRISE-CLASS PERFORMANCE AND RELIABILITY.

THINKCENTRE M73 TINY  
THIN CLIENT

THINKCENTRE M32  
THIN CLIENT

The Lenovo® ThinkCentre® M32 and M73 Tiny Thin Clients are desktop terminals without a hard disk drive. Unlike a regular desktop, they keep all the usual desktop features, applications and data in a centralized data center. In other words, these thin clients are the perfect solutions for businesses that want to create a Virtual Desktop Infrastructure (VDI).

The M73 Tiny comes in a compact form factor to optimize space management. Both the machines offer more I/O options for better productivity while saving on power consumption. They also come with a rich feature set that provides enterprise-level functionality at minimal cost. All this is backed by the legendary Think characteristics, like proven durability, hassle-free manageability and robust security. All in all, these are thin clients that perfectly fit your customers' IT ecosystem.

## THE LENOVO THIN CLIENT ADVANTAGE

### POWERED FOR PRODUCTIVITY

- The latest Intel ULV Celeron Platform
- 1GB/8GB/16GB Flash Supported
- Windows 7 Embedded and LINUX Client OS Flexibility

### STATE-OF-THE-ART MANAGEABILITY AND SECURITY

- Variety of I/O Support
- Dual Display Support
- Kensington Security Lock
- Lenovo Thin Client Manager
- Compatible with Citrix, VMWare and Microsoft Protocol

### GREEN AND SUSTAINABLE

- Fanless, cable-less and lower power consumption design
- Whisper-quiet performance
- Energy Star 5.2 Certification
- 87% higher efficiency and energy savings

### LENOVO THIN CLIENT MANAGER (LTM)

LTM is an advanced and powerful web-based application that lets administrators access consoles from any terminal. It can be used to manage a single thin client or a group of them. A virtual application, the LTM can be installed on Hyper-V, XenServer™, or VMware. But that's not all. The user-friendly interface offers detailed menus that make for easy access of various options.

The Lenovo thin client comes with licensed LTM, free for 3 years.
